

# Week 2 Activity

The screenshot shows a dark-themed Python online compiler interface. At the top, there's a navigation bar with a home icon, the URL "programiz.com/python", a plus sign for new tabs, a notifications badge with the number 29, and a three-dot menu icon. Below the URL, the "Programiz" logo and "Python Online Compiler" text are visible, along with a "Programiz PRO" button. The main area has two tabs: "main.py" (which is active and highlighted in blue) and "Output". To the right of these tabs are icons for brightness, sharing, and running the code. The code editor contains the following Python script:

```
1 name = "Jiezon Buscato Jr. C."
2 age = 19
3 height = 1.70
4 currently_working = True
5
6 print(name)
7 print(height)
8 print(age)
9 print("Currently working?"
      ,currently_working)
```
